# 2020 Loyalty360 Award Nominations

Submission Deadline: September 18, 2020

## About the Loyalty360 Awards

Now in their 7th year, the Loyalty360 Awards are the most coveted awards in customer loyalty. With an emphasis on objectivity, the Loyalty360 Awards recognize brands that are building lasting and profitable relationships with customers.

### Eligibility

Any brand with a customer loyalty strategy, initiative, or program is eligible to enter. Brands may submit themselves or vendors/partners may submit on behalf of their clients. Contact information for the nominated brand is required at submission. Should the brand be named a finalist, the brand is required to have a representative participate in the final judging process and ceremony. In the event there is a question on any part of the award submission, Loyalty360 reserves the right to request clarification from the brand.

Brands and vendors/partners may (and are encouraged to) submit for multiple categories/submit multiple clients for the Loyalty360 Awards. Each brand submitted requires a separate entry form. Submitting for more than one category increases chances of consideration for 360-Degree Awards (Brand and Supplier/Partner are awarded) - detailed on page 5.

Loyalty360 and the initial judging panel may make recommendations on additional categories that may be a better fit after an initial review. Loyalty360 will notify the brand if the judging panel has a recommendation for an additional or alternate category.

### Finalists and Winners

Four finalists will be named in October 2020 for each category. To complete the judging process, the finalists will be invited to the 2020 Virtual Loyalty360 Expo where each brand will give a 15 minute presentation of their entry to conference attendees. Following the presentations, Platinum, Gold, Silver and Bronze winners will be announced during an awards ceremony. All finalists will receive an award at the ceremony.

If the brand is not able to make their final presentation, the category runner-up will be nominated as the fourth finalist.

Brands may submit for as many categories as they would like. Although brands may only be named a finalist in a maximum of three categories (determined by their highest judging scores), additional entries will be considered in judging the overall 360-Degree Brand Award, due to its holistic and competitive nature.

Furthermore, entering (and being named a finalist for) Loyalty360 Awards are an important consideration for the Loyalty360 Top10 Awards (member-only awards) - separate from the Loyalty360 Awards.

Vendors/partners may not present for a brand client during the final judging round.

# Judging Process

There is a two-part judging process for the 2020 Loyalty360 Awards, which not only makes these awards unique, but also truly objective. Initially, all entries will be anonymously reviewed by our judging panel comprised of Loyalty360 members. The judging panel will name finalists in October, and then finalists will participate in a second judging round at the 2020 Virtual Loyalty360 Expo in November. As a part of the virtual event, all conference attendees can vote for Platinum, Gold, Silver, and Bronze winners after the finalists' presentations. Award winners and final placements will be announced in a ceremony on November 19.

## Judging Panel

For the initial judging round, a panel of more than 20 Loyalty360 members will examine, judge, and score each entry. Judges on the panel will include representatives from industry suppliers and partners.

## Judging Process

To achieve a truly objective and unbiased ranking, multiple judges will score each submission on a variety of criteria. After submissions are scored and averaged, entrants at the top of each category will be named as finalists.

## Finalist Presentations & Announcement of Winners

Four finalists will be named for each category in October. Finalists will present their cases to the audience during the Virtual Loyalty360 Expo, taking place November 10-12 for the final judging round.

For the final judging round, each brand will give a short presentation (10 to 15 minutes with time for Q&A) during their category's determined time slot. The four finalists in each category will present over the course of a 1-hour session (with a maximum of 15 minutes of speaking time for each). Finalists can create a slide deck including video, screenshots, and insights mentioned in the initial entry for the final judging round. Conference attendees will serve as the final judging panel, as they can cast votes for the Platinum, Gold, Silver, and Bronze awards in the presentations they attend.

The 360-Degree Award, which is the most comprehensive and prestigious of the Loyalty360 Awards, will assign point values to each finalist based on their finish after the final presentations and judging. Finalists will be ranked based on their total average scores across multiple individual categories. To be considered for the 360-Degree Award, brands must enter at least three of the categories and be named a finalist in at least one.

# Loyalty360 Awards Categories

## Awards and Categories

Platinum, Gold, Silver, and Bronze awards will be given for the following:

### Creative Campaign

Customer loyalty marketing is a discipline that, perhaps above all else, demands creativity. Considering the number of programs bombarding consumers today, only the most distinctive campaigns succeed in breaking through the static to stand on their own as unique entries in the hearts, minds, and inboxes of consumers. This category rewards brands thinking outside the box to engage these consumers in new and innovative ways through short term campaigns.

### Technology & Trends

Technology continues to be a huge theme in customer loyalty and shows no signs of going away any time soon. This category recognizes brands that have leveraged new technology to develop a fresh approach to their loyalty strategy. The winner will have developed a project that previously would have been either significantly more difficult or impossible without the presence of this new technology or platform.

### Employee Engagement and Impact

An engaged employee, some will tell you, is the most valuable resource a company can have. Creating this engagement, however, is much easier said than done, and requires a culture of alignment that ensures that every employee is working together toward a shared goal of the larger brand identity. The winner of the Employee Engagement category will have built this culture and created an engaged workforce that knows what the brand promise is, where it's going, and how it will get there.

### Loyalty Program Design

At its core, the most successful loyalty program is more than the sum of its features. While many programs feature similar granular mechanisms, it's how these features work in tandem that gives a program its identity and enables measurable, iterative growth. The winner of this category will have demonstrated that their program does the little things to ensure that every piece of the loyalty puzzle works together to create a seamless, user-friendly, and effective initiative.

### Program Partnership

Today's successful loyalty programs are not launched in a vacuum, and a growing number of brands are embracing the idea of partnering with one another to fully engage their respective consumers. This type of partnership would have been considered heresy five years ago, but as brands move into a new realm of co-opetition they realize that outside of the box thinking and unique partnerships can prove mutually beneficial and drive measurable program results for both partners. This award goes to the company that best leveraged these outside brand partnerships to successfully drive loyalty.

### Customer Loyalty Strategy

Through a combination of technology, training, socialization, and implementation, finalists in the Customer Loyalty Strategy category are truly dedicated to keeping customer loyalty top of mind. This category recognizes brands who have implemented an effective and measurable long-term customer loyalty strategy. The Customer Loyalty Strategy may or may not include a traditional customer loyalty program.

### CX Strategy

Now more than ever, brands need to demonstrate a true understanding of their customers' expectations through the delivery of positive customer experiences as a result of a comprehensive CX strategy. From technology, to training, to socialization, and implementation, these brands are committed to delivering consistently positive customer experiences from all levels of their organization. The CX Strategy may be a part of or separate from the brand's overall customer loyalty strategy.

# Loyalty360 Awards Categories

## Awards and Categories

Platinum, Gold, Silver, and Bronze awards will be given for the following:

### Innovation in Corporate Social Responsibility

Today's leading firms are focused on the world around us in addition to their core offering. Consumers are increasing their understanding of how brands enhance humanity across an array of possibilities, including sustainability, community impacts, and charitable giving. This award seeks to recognize the tangible and authentic impact brands are making based on their commitment to their mission statement, core values, and customers.

### Customer Engagement and Advocacy

As traditional marketing tactics may not be as effective as they once were, many brands are turning their attention to their best and/or most influential customers. As brands know, the importance of customer referrals and word-of-mouth marketing cannot be understated. This category will recognize the growing importance of customer advocacy, brand influencers, and the voice of the customer, with the end goal of creating organic and measurable brand loyalty.

### B2B Customer Loyalty

While not as common or top of mind as many traditional B2C loyalty initiatives, B2B programs are important for marketers to consider. Customers of these B2B programs may not be motivated by the same incentives as a B2C program member. Additionally, there likely are several other hurdles in a B2B purchase as compared to B2C, which requires these brands to think outside of the box when building a successful program. This category will showcase B2B brands that are taking a unique approach to build positive customer experiences and customer loyalty.

### Customer Insights and Metrics

The Customer Insights and Metrics category focuses on the brand's accessibility, measurement, and management of customer data - internally and externally - and how they are managing that data to create long-term customer loyalty. Strong entries in this category will demonstrate a brand putting the customer first by leveraging metrics, including customer data, voice of the customer, customer feedback, CRM, and market research, with the proven end result of increased customer loyalty.

### Incentive and Reward Design

Rewards and incentives are a major component of any loyalty program. With the prevalence of offers, consumers can include rewards and incentives options in their decision making process. If your rewards or loyalty membership perks are both unique and effective, we want to hear from you. Share your descriptions, results and why you think your incentives are the exception.

### Business Transformation and Leadership During Transition

Over the last several months, brands have had to quickly pivot and transform themselves to keep pace with rapidly evolving customer expectations, while also remaining sensitive to delicate internal and external health/safety and financial challenges. The obstacles that quickly hit and continue to impact brands, in many cases, were met with significant levels of innovation, creativity, empathy, and flexibility never seen before. This category will focus on brands that have demonstrated exceptional leadership through uncertainty and successfully dedicated themselves to a company-wide shift and updates to the brand's vision, communications, processes, program structure, and/or adoption of new technologies or services that have significantly enhanced customer and employee experiences and engagement during COVID-19. \*\*Metrics/results included for initiatives, campaigns, programs, etc. nominated for this category must have taken place between March and September 2020.

### Diversity and Inclusion

This award recognizes and celebrates the initiatives, policies, campaigns, and practices of brands that recognize the value of diversity and inclusion across the business - internally and externally - and have gone above and beyond in their commitment to create an environment where all employees and customers are valued and welcome. Winning initiatives should demonstrate success in leading to measurable and lasting change, benefits inside and outside of the organization, and evidence of positive business impacts.

### 360-Degree Award (Brand)

Our comprehensive overall award, the 360-Degree Brand Award recognizes brands for overall excellence in all facets of customer experience and loyalty. To qualify for this award, brands must enter three or more of the above categories, and be named a finalist in at least one.

### 360-Degree Award (Vendor)

In addition to our 360-Degree Brand Award, we will also recognize the solutions providers whose clients had best combined performance across all categories. These suppliers will receive points based on where their clients placed in their respective categories, and top earners will be recognized as winners of the 360-Degree vendor award.
